

BR MILANO CLOSE CONTACT JUMPING SADDLE

This saddle is manufactured of Italian leather and the kneepads and seat of French calf leather. The saddle has a flexible fibreglass tree reinforced with steel and provided with a cast sidebar. Because of the flexible seat you have a closer contact with your horse. The knee- and calf rolls provide a stable leg position. The anatomically formed panels guarantee a perfect fit and stable position on the back. The saddle has sunken safety hooks and contrast stitching.

102007 - BLACK, TABACCO, CHOCOLATE BRAUN - MEDIUM AND WIDE FIT - 17" AND 17,5"

H.S. SAFETY STIRRUPS BOW BALANCE

The new design ensures improved leg position and maximum security. Changing the weight ratio on these stirrups (S.S.) results in perfect balance and greater comfort for the rider. Shock absorbing grip is achieved by a widened tread made of rubber with two type of properties. The internationally renowned System 4 technology used in these stirrups enables immediate release of the foot in case of emergency. By flexing in four directions impact on the rider's cartilage and ligaments is softened, without feeling unstable. Bow Balance design provides easy "pick up" upon mounting as they require very little effort on the rider's part - a simple touch of the foot to the stirrups and it gently folds onto the rider's foot.

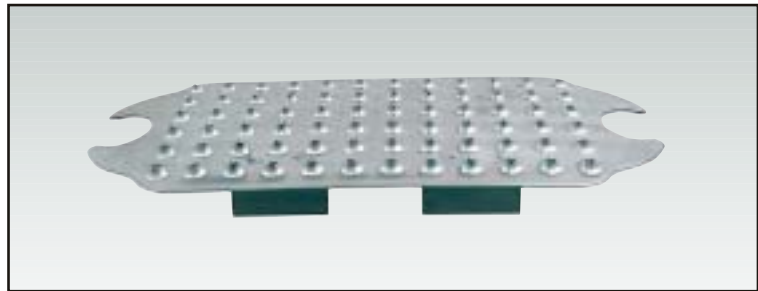

121482 - 12 CM

GRAND PRIX STIRRUPS

The Grand Prix stirrup (synthetic) is a completely new concept in riding because of its rotating pad(rubber). With one simple turn of the allen key, the stirrup pad may be adjusted to any angle to achieve optimum leg position and balance. This stirrup aids the rider by securing their desired leg position for a more correct, comfortable and secure ride. The large stirrup pad with its personalized positioning, will give riders a better grip and will relieve tension in the hips, knees ankles and calves. Each customer will get a counter display for free with the purchase of 2 or more pairs.
