

Premiere saddle pad Acugel

Made of 100% Natural Latex, this is highly breathable, sweat absorbing, anti-allergic, odour free and has a long life. This pad follows the contours of the horseback and provides a great orthopaedic spine support to the horse. Latex provides maximum shock absorption and great comfort to the horse for an exceptionally long period of time. The anatomic shape of the saddle pad provides a good fit on the horse. The pad has a non-skid, soft inner lining. **154160** - F/S -black

H.S. HO-weymouth bit

This bit takes advantage of the exceptional sensitivity of the tongue. The smooth and rounded port, which is angled forwards, even distributes the tongue pressure due to the angled and slanting mouthpiece. This weymouth bit combines the advantages of Aurigan, this unique metal encouraging the salvation and stainless steel to fit silver bridle work. 16 mm thick, with fixed s.s. cheeks.

Sergio Grasso jodhpur boots Belluno

Grain calfskin upper, real lambskin lining, front fastening, rear zip and a round toe. The technical-aesthetic qualities of these boots are enhanced by the innovative Procomf® Technology, a system that is developed and patented by Sergio Grasso to ensure maximum comfort for the rider. The system is based on the integration and interaction of three elements: the non-slip outer sole produced exclusively for Sergio Grasso by Vibram®; the natural leather midsole with high tensile steel shank, the breathable, antibacterial, latex foam insole with activated carbons and a high density, gel shock absorber. These jodhpurs are recommended for equestrian sport or as normal footwear. (These jodhpurs can also be ordered with a square toe) 562645 - black - 36 up to 46

Effax leather-cream soap

Cleanes and cares for all smooth leathers. The product is applied simply and quickly with a sponge, over the entire surface, without any water being required. It gives the leather a good grip. Because of the FlicFlac bottle you can hang it up or simply position it anywhere.

763781 - 400 ml

Sergio Grasso riding boots Merano

Full grain calfskin upper, real lambskin lining, rear zip, stitched padded ankle, round toe, zip protection and spur rest. The technical-aesthetic qualities of these boots are enhanced by the innovative Procomf® Technology, a system that is developed and patented by Sergio Grasso to ensure maximum comfort for the rider. The system is based on the integration and interaction of three elements: the non-slip outer sole produced exclusively for Sergio Grasso by Vibram®; the natural leather midsole with high tensile steel shank, the breathable, antibacterial, latex foam insole with activated carbons and a high density, gel shock absorber. These boots are suggested for jumpers and dressage riders. (These boots can also be ordered with a square toe)
