

BR snaffle Pessoa

Pessoa 4-rings, double jointed, solid s.s., rings 65 mm.

251066 - 18 mm - 12,5-13,5-14,5 cm

H.S. snaffle Turnado

This bit lies perfectly in the horse's mouth because the mouthpiece is angled forward by 45°. In contrast to other loose ring snaffles the aids given with the reins on this new bit reach the horse's mouth more precisely but still in a soft way. The bit is more readily accepted resulting in prompt and ideal chewing activity. This snaffle helps to prevent tongue vices - putting the tongue over the bit often stops almost immediately when this bit is used. S.S., 16 mm. 251493 - 125-135-145

BR tendon boots Ventage

This good ventilating tendon boots evaporate the sweat to keep the leg dry and cool to restrict the risk of a tendon inflammation.

Casco riding helmet

Professional helmet for the youth! Lightweight helmet (360 grams) with a compact design for optimal comfort. Because of the Monocoque-Ultra construction the outer shell is bounded to the core, it forms a sandwich component that can not come apart. The heading with disk-fit system makes it really easy to adjust the size. The helmet will be delivered with 18 different country stickers that can be stuck on the front of the helmet, herewith you create your own unique helmet.

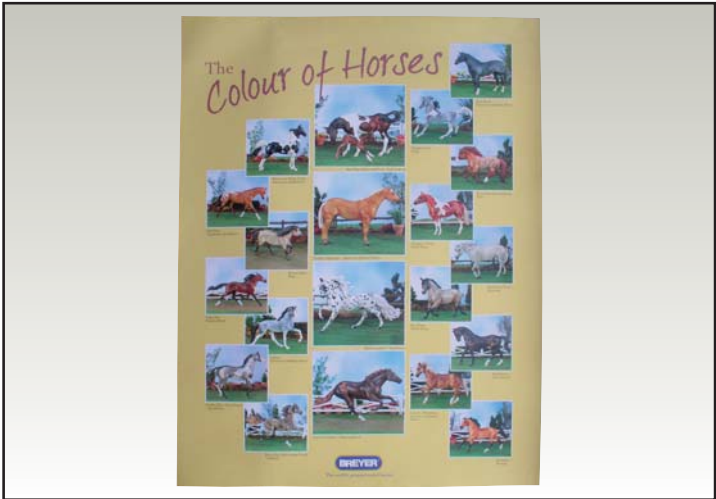

543930 - titaan blue, titaan black - 50-55
